

Insulation Fact Sheet

This is Applegate Cotton Armor™ Foil Backed Duct Wrap Insulation.

| R-VALUE | TYPE | THICKNESS | WIDTH | LENGTH | COVERAGE |
|------------|-----------|-----------|-------|--------|--------------|
| R-2 | Duct Wrap | 1/2" | 12" | 15' | 15 sq. ft. |
| R-4 | Duct Wrap | 1" | 12" | 15' | 15 sq. ft. |
| R-4 | Duct Wrap | 1" | 10" | 15' | 12.5 sq. ft. |

The R-value of this insulation varies depending on how much it is compressed during installation.

What You Should Know About R-values

The chart shows the R-value of this insulation. R means resistance to heat flow. The higher the R-value, the greater the insulating power. Compare insulation R-values before you buy.

There are other factors to consider. The amount of insulation you need depends mainly on the climate you live in. Also, your fuel savings from insulation will depend upon the climate, the type and size of your house, the amount of insulation already in your house, and your fuel use patterns and family size. If you buy too much insulation, it will cost you more than what you'll save on fuel.

To get the marked R-value, it is essential that this insulation be installed properly.

And he hath put a new song in my mouth, even praise unto our God: many shall see it, and fear, and shall trust in the LORD. Psalm 40:3
